

2009 Club Sites

MSRA will make available club gathering sites for those interested car clubs. A reminder to all clubs that these sites are not a reserved parking permit for the streets in front of the club site; they are to serve as a gathering spot for your member.

There are no reserved parking spots on the streets of the fairgrounds. Some club locations may have space within the area designated for their club that will accommodate vehicles or accessory trailer parking without infringing on other clubs or vendors. These spots must have access and egress capability if so used without infringing on the entrants parked in areas along the streets designated as participant parking.

To have a spot assigned to your club, a representative of the club will need to register in person, on Thursday, June 18, 2009, from 1PM to 4 PM at the Lester Building.

Clubs that had sites at last year's Back to the 50s will have first chance at those sites unless they are no longer usable due to changes to the fairgrounds or vendor issues. Any clubs displaced because of these unavoidable issues will be given preference in assignment of remaining available sites. Clubs new to the event will be assigned spots as available. Open space assignments will be made on a first-come, first-served basis.
